

HAZUS 2015

8th Annual Conference

Welcome

Hazus Program and Software

Hazus Missions

- A key part of FEMA's mission to protect against, respond to, recover from and mitigate hazards.
- Hazus falls under the Risk MAP Program which seeks to deliver quality data to increase public awareness and reduce risk

Hazus Missions

- First released in 1997 as Hazus 97 principally focused on Earthquake Modeling
- Became Hazus-MH (Multi-Hazard) in 2004 with the addition of the Flood Model
- Hurricane Model was added in 2007
